| | |
|--|-----------|
| How this book is put together | 3 |
| <i>A Word About Science</i> | 3 |
| The Beginning of an Idea | 5 |
| Why Eat Weeds? | 11 |
| <i>Herbicides aren't working for us!</i> | 11 |
| <i>Weeds are nutritious!</i> | 12 |
| <i>They're a plentiful forage!</i> | 13 |
| <i>Grazing weeds is easier and more economical than spraying them!</i> | 13 |
| <i>Can cows eliminate weeds?</i> | 14 |
| <i>When our "War On Weeds" isn't working, can we give peace a chance?</i> | 15 |
| Frequently Asked Questions | 17 |
| <i>How do you teach a cow?</i> | 17 |
| <i>How long does it take to teach a cow?</i> | 17 |
| <i>Don't the spines and prickles on the plant hurt the cow?</i> | 18 |
| <i>Why don't you just use goats?</i> | 18 |
| <i>Can I just spray my fields with molasses?</i> | 18 |
| <i>If the plants have toxins, won't the cows be poisoned?</i> | 19 |
| <i>If I train my cows to eat weeds are they more likely to eat poisonous plants?</i> | 19 |
| <i>Can dairy cows eat weeds?</i> | 20 |
| <i>What are the long-term effects of weed-eating on the cows?</i> | 20 |
| <i>Well it may work some places, but why do you think it will work at my place?</i> | 21 |
| <i>Is Kathy a Kook?</i> | 21 |
| How Animals Choose Foods | 23 |
| <i>To Build a Perfect Pasture, Ask Your Livestock</i> | 23 |
| <i>The Role of Palatability</i> | 25 |
| <i>What We Know About Feedback</i> | 27 |
| <i>Lessons from the field: The effect of nutrients and "Open-Minded" Cows</i> | 28 |
| <i>The Role of Mom and Herd Mates</i> | 30 |
| <i>How Neophobia Protects Animals From Harm</i> | 32 |
| <i>Lessons from the field: First impressions count!</i> | 34 |

| | |
|--|-----------|
| <i>The Role of Taste in Choosing What to Eat</i> | 35 |
| <i>Protecting Animals From Failure</i> | 36 |
| <i>How Does This Help Us Teach Cows to Eat Weeds?</i> | 37 |
| Step 1: Know Your Weed | 41 |
| <i>Nutrient Rule of Thumb: If it's green and growing it's probably nutritious.</i> | 42 |
| <i>Toxin Content Determines Whether Or Not You Should Train Your Cows to Eat A Plant</i> | 44 |
| <i>Diet Mixing Reduces Toxin Problems</i> | 44 |
| <i>The Effect of Toxins On Animals</i> | 46 |
| <i>Finding A Plant's Latin Name</i> | 47 |
| <i>Looking Up Nutritional Values</i> | 47 |
| <i>Looking Up Toxin Content</i> | 48 |
| <i>Understanding What You Read</i> | 48 |
| <i>The Internet as a Resource or "Beware of Poisonous Plant Lists"</i> | 49 |
| <i>Protecting Animals From Failure</i> | 50 |
| <i>Don't Believe Everything You Think</i> | 51 |
| <i>Explore!</i> | 51 |
| Step 2: Choose Your Trainees and Training Location | 53 |
| <i>Young and Female</i> | 53 |
| <i>Manageable number</i> | 55 |
| <i>Friendly Animals</i> | 55 |
| <i>Training Location</i> | 55 |
| <i>Lessons from the field: Tricks I've Used With Trainees</i> | 57 |
| Step 3: Make the Unfamiliar Seem Familiar | 61 |
| <i>The Process Summarized</i> | 62 |
| <i>Overcoming Neophobia</i> | 63 |
| <i>Choosing Feeds</i> | 64 |
| <i>What About Molasses?</i> | 64 |
| <i>Tubs, Troughs, or Feeding on the Ground</i> | 65 |
| <i>Same Time, Same Sounds, Same Place, Similar Clothes</i> | 67 |
| <i>Lessons from the field: Just like Pavlov's dog</i> | 68 |
| <i>Weed Harvesting and Preparing</i> | 68 |
| <i>Pay Close Attention</i> | 71 |
| <i>Training for More Than One Weed at a Time</i> | 72 |
| <i>Trouble-Shooting</i> | 73 |
| <i>Enjoy the Process!</i> | 74 |
| Step 4: Practice in Pasture | 77 |
| <i>Provide a Good Learning Environment</i> | 77 |
| <i>Practice as long as it takes</i> | 79 |
| <i>Watch for Other Weed Additions</i> | 81 |

| | |
|--|------------|
| <i>Spread the Word in the Herd</i> | 81 |
| <i>Enjoy the Good Feedback!</i> | 83 |
| <i>Photos of Changes in Weeds (Clockwise from left)</i> | 84 |
| <i>Pasture Examples</i> | 85 |
| Lessons From the Pasture | 87 |
| <i>Grant-Kohrs Ranch Cows Eat Canada Thistle, Leafy Spurge and Spotted Knapweed</i> | 88 |
| <i>California Cows Pilot Improved Training Process and Eat Distaff and Italian Thistle</i> | 91 |
| <i>Low-Protein, Late-Season Diffuse Knapweed a Hit With Cows</i> | 94 |
| <i>Teaching Bison to Eat Canada Thistle</i> | 96 |
| <i>When Cows Won't Eat the Target Weeds in Pasture</i> | 98 |
| <i>Cows As Brush Managers</i> | 101 |
| Working With Cow Colleagues | 105 |
| <i>A Philosophy For Reducing Stress - Yours and the Cow's</i> | 105 |
| <i>Low-stress livestock handling is not magic, it's just good manners and tact</i> | 107 |
| <i>Have Your Cows Trained You?</i> | 108 |
| Building a Training Plan | 111 |
| How's It Going? | 121 |
| <i>Repeat Photography Instructions</i> | 122 |
| <i>Tracking Changes in Weeds</i> | 124 |
| <i>Repeat Photo Data Sheet For Pastures</i> | 125 |
| Meeting Weed Management Goals | 127 |
| <i>Is Weed Elimination the Goal?</i> | 128 |
| <i>Considering Animal Behavior</i> | 128 |
| <i>Grazing Timing</i> | 129 |
| <i>Grazing Intensity</i> | 130 |
| Where do we go from here? | 133 |
| Glossary | 135 |
| Weeds Cows Eat - 2009 List | 137 |
